

Product Data

Flexible Roof Repair & Protection System

Belzona® 3111 (Flexible Membrane) is a single component solvent free microporous coating for the long term repair and protection of all types of roofs.

This versatile liquid applied material provides outstanding weatherproofing and waterproofing properties with excellent protection against infrared and ultra violet radiation.

Belzona® 3111 (Flexible Membrane) will:

- Simplify roofing maintenance
- Provide long term protection - 20 years +
- Bond strongly to all types of roofing substrate
- Follow complex roof contours

This lightweight seamless polymer coating bonds tenaciously to a wide range of substrates including felt, asphalt, lead, zinc, copper, glass, concrete and brick.

Belzona® 3111 Flexible Membrane

Gutters

Glazing Bars
